## SKILLS

**FRONT END DEVELOPMENT** | ReactJS ● HTML /CSS ● JavaScript ● BootStrap ● SASS
**BACK-END DEVELOPMENT** | Python ● NodeJS ● Flask ● Express ● MongoDB
**API DEVELOPMENT** | RESTful API ● Design & Integration
**INFORMATON TECHNOLOGY** | IT-administration ● PDC ● VLAN ● Firewall ● Virtualization ● Managed Network Switches ● Networking infra
**MISCELLANEOUS** | SQL ● M365 ● Django ● Git
**SOFT SKILLS** | Team play ● Result-Oriented Delivery ● Proactive and Action bias approach

## EXPERIENCE

**MGM BHARAT PRIVATE LIMITED** | **Project development, Front End Framework, Web Scrapping, HTML, CSS, JavaScript, Web APIs, RESTful APIs, JSON, SQL, Browser Extensions and ERP UI Customization**

IT – Senior Engineer | June 2024 – Present | Mysore Karnataka

### Leads Tracking Tool (Browser-Based App)
- Developed an interactive lead capture tool using HTML, CSS, and JavaScript with a clean, responsive UI.
- Leveraged browser APIs and local storage for offline data persistence and real-time tab tracking.
- Built and maintained the manifest.json for Chrome Extension support and granular permission control.
- Enhanced sales productivity by enabling users to bookmark lead sources and access them contextually.

### Enterprise Solution
- Led front-end design and architectural planning for a scalable ERP-like enterprise app.
- Developed reusable components to integrate multiple business modules using JavaScript and REST APIs.
- Improved cross-functional workflows by integrating dashboards with real-time status updates and data visuals.

### UI/UX Optimization & Framework Testing in ERP
- Conducted performance and usability testing of front-end interfaces; implemented improvements for accessibility and responsiveness.
- Evaluated and implemented front-end frameworks (e.g., Bootstrap, basic JS frameworks) to enhance modularity and scalability.

### ERP UI Enhancement & API Integration
- Designed a customer-facing ERP front-end module for managing shipping workflows.
- Integrated REST APIs to sync shipping statuses with customer dashboards in real time.
- Streamlined the order-to-delivery journey with automated UI feedback and notification logic.

### IT Security
- Surveillance System Administration: Managed and maintained CCTV systems, ensuring optimal performance, security, and policy compliance.
- Network Integration: Integrated CCTV cameras with IT infrastructure for seamless data transmission and real-time monitoring.

**SIDERFORGEROSSI INDIA PRIVATE LIMITED** | **IT – administration, Data security, Database Management, Managed Network switching**

IT – Assistant Engineer | June 2023 – May 2024 | Mysore Karnataka

### Database management
- Designed and deployed SQL databases to customize and upgrade the ERP system.
- Developed SQL-backed features for dynamic content display and user input validation.
- Used SQL to troubleshoot and optimize data handling for front-end display layers

### Network infrastructure
- Implemented load-balanced ILLs for zero downtime and 24/7 monitoring.
- Upgraded to managed HP Aruba switches with VLAN segregation for IT and OT.
- Established a redundant backbone and passive network

### Data Security protocols
- Deployed a Fortinet 100F firewall with high availability and 24/7 NOC support.
- Implemented a file server with automated data backup.
- Augmented security with VPN access for key users.

**SIDERFORGEROSSI INDIA PRIVATE LIMITED** | **Server Virtualization, Microsoft 365, Web-Based Tools for IT**
IT – Intern | March 2022 – June 2023 | Mysore Karnataka

### IT Infrastructure development
- Refined system performance and minimized user-end issues.
- Standardized IT assets and deployed a unified OS platform.
- Migrated premises from WORKGROUP to Domain.

### Centralized server deployment
- Deployed a virtualized server with a Primary Domain Controller.
- Provisioned Active Directory, Group Policies, and Microsoft 365 sync.

## EDUCATION

**ATME COLLEGE OF ENGINEERING**
BE - Electronics & Communication
2020 | Mysore Karnataka

**CPC POLYTECHNIC**
Diploma - Electronics & Communication
2017 | Mysore Karnataka

## ⭐ ACHEIVEMENTS & CERTIFICATONS

**Python Programming |** Course completion of Python programming and understanding the data structure and algorithms | 2023 | Coding Ninja

**Lab VIEW Core I & II |** For graphical programming, visualizing aspect of application, hardware configuration, measuring data, and debugging | 2020 | Mysore

## COURSEWORK

Data Structure and Algorithms
ReactJS
Django
Artificial Intelligence
API's
